The aim of the SWACHH BHARAT is to cover all the rural and urban areas to keep our surroundings clean and awareness among the people to keep clean. As we are taking apart of this event, we NCC OF KCT has participated in a lake cleaning. To keep our environment clean Coimbatore district administration is seeking support from institutions to involve student volunteers in a lake cleanup initiative that is being planned on 21st July at Sengulam lake. We the NCC cadets join hands with other citizens and cleaned up the polluted lake area and brought the new identity to that place. This create the awareness among that peoples to maintain the lake because nowadays water scarcity is main crises in today's life. Inorder to find the solution the water have to be conserved and it should not get polluted. We must take the responsibility to protect our natural resources. We should not make the path difficult for our future generation.

**"BE A PART OF THE SOLUTION NOT  
PART OF THE POLLUTION"**

We NCC Cadets has been divided into groups to perform this program. Then We started picking up the pieces of small plastic spreaded all over the lake side. Though it is difficult to clean up all those things, we happily did our job to make the place clean and neat. Due to the garbages in that lake there is a lack of flowing water and it gets more polluted, so we have to maintain the lake clean and save the water for our future generation. Swachh Bharat should not only be the responsibility of the government it should be the responsibility of every citizen residing in the country. Achieving the goal of clean India will never be possible Until and unless we collaborate with each other and join hands to clean our surroundings and stop others From making it dirty.
